

Tours & Site Visits

We offer tours of PASS facilities for interested individuals and families. These tours are usually arranged by your Personal Agent [at your Support Services Brokerage] or Case Manager [at the county in which you live]. If you do not have a Case Manager or Personal Agent you should get one – which one you need will depend on your individual situation. Generally, the county is the place to start that process.

If you are not eligible for a PA or CM and would like to visit anyway we would be happy to arrange to meet you. **Just call us at (503) 262-9322 and ask for Evvalee or Amy.** They can talk with you about PASS and its services [Day Program and Respite Care] as well as set up a tour at a mutually convenient time.

PASS services are designed around support for the individual and family. We offer service plans with extended hours and flexible schedules to meet the needs of clients, caregivers and family members. Our 3-tier fee structure is designed to match client needs with staffing resources while maintaining a higher than average staff to client ratio – one of the hallmarks of the PASS ‘model’.

In general we do not accept new clients with high medical or behavioral needs; however, each request for services will be evaluated on its own merits by our Management Team.
